

ICOE 2016 Business Partnering

ICOE is a global marine energy event focused on the industrial development of the sector. Collaboration across the entire supply chain is critical to commercial success, so Renewable UK and the Enterprise Europe Network have teamed up to offer business partnering to all Edinburgh 2016 delegates, enabling you to meet specific business contacts during the event.

This is an ideal opportunity to target marine energy research, development, testing, device developers, and investment and commercialisation partners for short one-to-one meetings to explore business development and collaboration options.

Taking part gives your company exposure to other delegates, and is easy!

Register now at: www.b2match.eu/ICOE2016

N.B. You **MUST** be registered for the ICOE conference to take part

N.B. After the conference, there will also be the opportunity to hear about research and innovation funding opportunities available through Ocean Energy ERA-NET joint calls <http://www.oceaneranet.eu/pages/home-5.html>

This element **ONLY** is open to individuals which are not registered for ICOE
