What do companies need to grow?

Markets & Clients

Central hub for EU market access
 Austria as test market for biggest and most profitable DACH region
 Hub between east and west
 Strong purchasing power

Talent

Truly international talent hub
 Highly motivated and productive staff
 With highest quality of life
 At moderate cost of living

Low Taxes

Investment-friendly tax system featuring a 14 percent tax credit for investments in research
 Unified corporate tax rate of 25 percent

Funding

One of the strongest countries in Europe for public funding – especially for R&D

Support

ABA – Invest in Austria offers cost free, tailor made support

...Austria offers it!

CURRENT TARGET RAISE
JPY 650.000.000

WANTED

- Business partners in order to grow our presence in the market, either through collaborative promotion or distribution partnerships
- Customers, enterprise level companies from the industry, main sectors: automotive, energy, offshore, consumer goods etc.
- Investors interested in series B of investment

PRODUCT/SERVICE

WE DEVELOP AN IT PLATFORM FOR INDUSTRIAL 3D PRINTING which covers the whole workflow - from selecting the parts feasible for AM to ordering and production management. The solution provides online access and team collaboration alongside model optimization and increased printer utilization.

CORE CAPABILITIES
TECHNOLOGY & COMPETITIVE EDGE

- We are positioned to become the primary platform enabling 3D production centers to digitize and optimize AM production workflows.
- We are integrated with every major design software, have implemented a white-labeled SaaS solution & are working with leading enterprise businesses.

PERFORMANCE & TRACTION

We work with leading OEMs from all industries (energy, automotive, defense etc.) like BMW, Bosch or Total supporting their AM supply chain management. Our pricing model is based on a yearly subscription fee (ARR), and we experience a significant revenue growth - this year we aim at 2 Mio EUR.

SECTOR
Cross vertical AI analytics, heavy industries and facility management

STAGE
Scaling

CURRENT TARGET RAISE
Currently not raising

WANTED

We are interested in piloting and modifying our products to adapt to the Japanese markets with a focus on facility management.

PRODUCT/SERVICE

LEXATEXER PROVIDES enterprise AI software (LXTXR) and proprietary IoT devices to support the digitization of the heavy industries and facilities. AI and analytics initiatives in verticals like utilities, manufacturing, and facility management suffer from high complexity and a lack of data, sensor and solution integration, often not delivering the value expected. That is where LexaTexer comes in: LXTXR lets you rapidly build, validate, integrate, operate and scale AI driven solutions, even in cases with little to no data available.

CORE CAPABILITIES
TECHNOLOGY & COMPETITIVE EDGE

LXTXR's technology stack includes: Enterprise grade platform AI to develop, validate, integrate, secure, scale data and AI driven solutions, flexible on-/off-premise deployment, proprietary IoT devices to get results in days not month, hybrid AI-physical models, unstructured data access.

PERFORMANCE & TRACTION

Customers in GER, AT, CH, UK, SG. Reference customers include Daimler AG (Manufacturing), Salzburg AG (Utility, Turbines), Freudenberg (manufacturing, Tier1) SBB AG (Railway Operator, non-rolling stock), Deutsche Bahn AG (Railway Operator, non-rolling stock), Lloyds register (Heavy Industries, safety), KSB (manufacturing), SEW Eurodrive (manufacturing), Nikko AM (Finance).

German Centre for Research and Innovation Tokyo (DWIH Tokyo)

About DWIH Tokyo

The German Centre for Research and Innovation Tokyo (DWIH Tokyo) is a platform for German universities, research institutions and research-based companies in Japan. It represents and promotes Germany as a location for science, research and innovation. It supports knowledge exchange between Germany and Japan, and communicates with relevant stakeholders in both countries, thereby creating the preconditions for research cooperation. In doing so, it relies on its research-based supporters in Germany who facilitate and shape the work of DWIH Tokyo on the ground.

DWIH Tokyo is part of a global network of five German Centres for Research and Innovation. Since its establishment in 2010, it has been supported by the German Federal Foreign Office. It has been coordinated by the German Academic Exchange Service (DAAD) since 2017.

STAGE
Seed

CURRENT TARGET RAISE
USD 3,000,000

WANTED

- Clients (CPG brands, D2C subscription, Online grocery & fresh delivery, Online pharmacy, etc.)
- Partners (Carrier, Express delivery providers, 3PL)
- Piloting partners (Real estate company, Municipality)

PRODUCT/SERVICE

SMART CONTAINER that can be controlled via smartphone eliminates the chance of re-delivery, package theft and allows asynchronized delivery/shipping operation. Consumers can both receive and ship items from their homes safely without meeting delivery staff or robots. With our reusable shipping box, brands/retailers are able to automate packing/shipping operation and save millions of disposable shipping boxes.

CORE CAPABILITIES
TECHNOLOGY & COMPETITIVE EDGE

- Secure and trackable with low-cost - our mobile app doesn't require any network setup at the container. Status and contents data is tracked on our cloud.
- Container as a Service - No initial cost for retailers, charge only per usage duration and delivery transaction. For the long-term, the cost is reduced compared with a disposable cardboard box.
- Scalability with asynchronized operation - No time consolidation for both carrier and consumer. Just to drop/load the container to the designated location/station. No limit of number/size to store the package.

PERFORMANCE & TRACTION

- 5 paid customers (Pharmacy, Real estate, Utility, etc.)
- 10+ pilot customers/partners (SAP, DHL, Sumitomo, etc.)
- 15+ accelerator program (HAX, Plug and Play, Global Incubator Network, Orange Fab, etc.)

B2MATCH

How to use our matchmaking & online platform to meet startups and other participants and view all pitching / panel sessions live

01 Online registration REGISTRATION

- Register via the green button "Register now".
- Add contact and organisation details as requested.
- Compose your personal event schedule by adding sessions of your choice.
- Those who are interested in online meetings MUST select at least one networking session.

02 Make yourself visible through an outstanding business profile

COMPANY PROFILE // MARKET PLACE

- Explain the product/expertise you are offering or looking for.
- High-quality profiles are visited 50 to 100 times before, during and even after the event.
- A meaningful profile will generate significantly more meeting requests

03 How to manage bilateral meetings? BOOKING MEETINGS

- Browse the list of attendees or check the marketplace profiles.
- Use the optional filters to easily find the ones aligned with your goals.
- Send meeting requests to those companies/persons you want to meet.
- Adding a short reason why you are interested in a meeting will increase the acceptance.
- Meeting requests must be confirmed by the recipients to be scheduled.
- Check every incoming meeting request and accept or refuse if not appropriate. It is a matter of politeness to let the requester know if you are interested in a meeting or not.

DURING THE EVENT

- Check again the latest version of your meeting schedule through the platform. Due to last minute changes it might have changed slightly.
- RESPECT the other participants' time and show up to all your meetings.
- If an unforeseen circumstance arises and you will not attend a meeting, please cancel your meetings through the platform. This way, the other participant will be notified.

Additionally to the startups who will pitch at the TechBIZKON IV, you will find on the following pages further interesting startups from Austria, Germany and Japan who will be available for meetings at the B2Match platform.

IVISO GMBH
www.iviso.at

Nicolas Thorstensen
nicolas.thorstensen@iviso.at

IVISO has developed an intelligent software which enables highly precise positioning anywhere. We offer extreme accuracy at a price point orders of magnitude below the existing one. We are a full-service provider from feasibility to series products

Symbiotic GmbH

ABOUT GIN

POWERED BY SUPPORTED BY

The **Global Incubator Network Austria (GIN)** is the connecting link between Austrian and international startups, investors, incubators and accelerators with a special focus on startup hotspots in the fast-growing markets of Asia (Mainland China, Hong Kong, Singapore, Japan, South Korea and Israel). As a single point of contact, GIN offers customized services for national and international partners.

GIN FOR STARTUPS

GO ASIA: We bring Austrian startups to the world's most innovative startup hubs, help them to build networks with international strategic partners and provide them with essential know-how in terms of market entry and global expansion – strategically and financially.

GO AUSTRIA: GIN is aimed at Asian startups who want to internationalize and seek to further develop their business activities in the EU-market via Austria. A hand-selected mentor supports the startup in order to find the right collaboration partners (corporates, investors, ...) and to receive valuable market insights.

GIN SERVICES

Also addressed are **investors and incubators** from Austria and the GIN target regions. We offer investors the internationalization of existing investments, access to international startups and new investments as well as networks with private and public co-investors. Accelerators can benefit from hosting our most promising pre-selected Austrian startups and facilitate the internationalization efforts of their startups via our GO AUSTRIA program or through one of our GIN partner incubators.

Contact us:
office@gin-austria.com
www.gin-austria.com

BE PART OF THE GIN NETWORK

GIN is owned by the Austrian Federal Government and managed by the public agencies AWS (public promotional bank) and FFG (research promotion agency).
