General Information

Short summary

A Polish company with extensive experience specializing in the design and production of innovative bicycle facilities (bicycle garages, lockable shelters, boxes and bicycle stands) is looking for distributors of its products worldwide (energetic and determined sellers ready to improve their cities and communities with products made by the Polish company).

Full description

Polish company, located in the north-eastern part of Poland, is a producer of innovative bicycle facilities.

The product offered for distribution is a bicycle garage-box (also known as bicycle shelter, Velo box, Bicycle locker, velobox, bike box). It is designed for storing and charging vehicles (bicycles, electric bikes, electric scooters, scooters, mopeds, etc.) in public spaces, on the premises of cooperatives, housing communities and on private properties. Bicycle garage-box has an asymmetrical side line, having quarter-circular side surfaces and movable doors. The bicycle box protects the equipment against adverse weather conditions and direct access by unauthorized persons. It is equipped with a mechanical or electronic lock, and has a two-level stand with a bicycle lock. The

garage can be optionally equipped with an electric vehicle charging station located in the central part of the rear structure. Compact dimensions allow the box to be placed anywhere.

Construction description:

Garage structure: hot-dip galvanized steel profile

Side cladding: perforated galvanized sheet metal

Powder coating: thermosetting paint baked at 200 °C.

Roof covering: trapezoidal / corrugated coated sheet metal.

Two-level stand with bike lock, hot-dip galvanized,

(number of bike stands from 3 to 5)

Suitable for all types of bikes, scooters, mopeds and motorcycles.

Electric vehicle charging station

LED lighting with motion sensor

Depth 230-250 cm / Width 210 cm / Height (closed) 150 cm / Height (open) 195 cm / Weight 100 kg

The Polish company is open to cooperation with distributors worldwide.

Target: distributors (commercial agreement).

Characteristics of an ideal partner: experience in servicing developers, property managers, multi-family buildings, sale of similar goods (bicycle shops, construction wholesalers, construction hypermarkets).

Tasks to be completed: shipment of goods to the target customer, service and after-sales services, the partner offers cooperation under a delivery agreement.

Preferred locations: Europe, USA, Canada, Australia, New Zealand, South America.

Advantages and innovations

This is a new generation of bicycle boxes, designed for safe storage of bicycles and charging of two-wheeled vehicles. Thanks to its solid steel construction, it is resistant to burglary and vandalism. Safe and easy-to-use parking for bicycles and scooters.

The designer model is ideal for private properties as well as terraced houses and modern multi-family buildings.

- Provides protection for vehicles against adverse weather conditions,
- Is compact and takes up little space
- Minimal maintenance and service,
- At least 25 years of technical usability,
- Easy to transport and assembly.
