## General Information

### Short summary

The company is interested in finding re-sellers, distributors, contacts and collaboration partners for its shoes and accessories in both EU, USA and Japan. Both digital and on-site.

### Full description

The company has been producing shoes, slippers, clogs and boots for 100 years. Today it is the only shoe factory left in Sweden.

The shoes have good reputation, high quality and the brand is well known in Sweden.

Recently, a new factory premises were built and today the company is run by a women entrepreneur.

The new factory and shop are located in the world heritage Högå Kusten, in central Sweden. Beautifully nestled in one of the bays of the Bothnian Sea with Skule National Park as a backdrop. In the valley between the mountains and the sea, where people thrive, we continue to produce our shoes. Just as they have done since 1923.

The company takes pride in their craftsmanship and shoes that are made to last for a long time.

Collaborations with several other brands have begun, resulting in their classics in a new guise. Examples include Emma von Brömssen's designs Hares in Hiding, Talk about Cockatoos and Oak Tree Tails, which will adorn our classic Gunilla model.

Warm hats and gloves are part of the collection. Comfortable socks, durable belts and beautiful bags. And lots of other fine leather accessories. The company stands for good design and solid craftsmanship.
