General Information

Short summary

A Czech company, specializing in distribution and professional services related to diverse testing instruments seeks a manufacturer of tensile testing machines designed for business and/or research that would be interested to enter Czech and Slovak markets.

Full description

A Czech company was established in 2015 by an owner having many years of experience in the field of metallography. Today, the company represents numerous important brands in area of testing instruments on two markets, in the Czech Republic and Slovakia.

The company also provides a large scale of services such as:

- streamlining test sample preparation processes or sample design
- Reducing the cost of metallographic sample preparation
- customization of metallographic equipment - special modifications (increased automation, ease of operation, different materials, etc.)
- training of personnel

Currently the company seeks a manufacturer of a high-quality tensile testing instruments, usable for business and/or for R&D that wishes to enter Czech and Slovak markets.

Advantages and innovations

Technical specification or expertise sought
