## MONTAJES Y MECANIZADOS LENIZ

Japanese companies :

*"Specializing in the manufacture of high-precision components"*

>> opportunity to collaborate;

- When MML receives an order they can not answer because of the precision required...
- MML will contact AZUMI to ask for their collaboration and Budget.

2

**SAIOLAN has presented GLACERA solution to NEIKER Technological Centre**

- NEIKER sees potential benefits of the solution
- We need more information about GLACERA to continue the identification of a potential partner in Basque Country

 **ABEX CO. LTD**

*"GLACERA" is a lightweight, porous & foamed inorganic material made from glass waste. GLACERA can be used in various applications such construction, farming, deodorization, water purification and cleaning.*
