Goals of the Business Round Table

Obtain stakeholders opinions and expectations

Current status

- 4 working parties since many years
- Highly increased activity shortly before the annual BRT meeting but otherwise quiet

Future ideas

- Re-classification of Working Parties in contents and members
- Adding new Working Parties
- Having an increased exchange within each Working Party during the year / break-out sessions
- Diverse representation of the member companies within the Working Parties

Proposals for new WP:

- Connectivity / Third Country Business
- Space / Security / Defence
- Regulatory Cooperation

The WP should contain the knowledge based on their members input and provide a momentum to the BRT

#newBRT – way forward

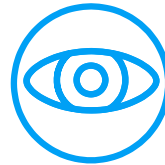

Collect opinions

- *Meeting on EU side in TYO (Jan. 28, 2020)*
- Best-Practice from other like-minded events:
 - Japan- U.S. Business Conference
- Benchmark
- Common understanding

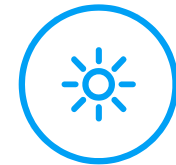

Establish a *Steering Committee*

- Small and agile
- Equal representation from stakeholders
- Open and without limits “out of the box”
- Expectation Management / Consensus

Present results

- Communicate findings
- Prepare recommendations
- Implement

Get results by first quarter CY2021
